🚫 Problems — Stop

- Licence expired 12 years ago on 17th December 2009. Renew.
- Registration has lapsed. It has been canceled by the New Zealand Transport Agency usually for the reason being unlicensed for too long.
- WOF expired 13 years ago on 15th June 2009.

⚠️ Warnings — Careful

- Registration Cancelled/Lapsed
- The vehicle has been re-registered — de-registered in the past and then registered again. You should determine why this vehicle was re-registered - for example it may have been written off and repaired.
- Odometer readings are inconsistent and jump backwards sometimes. Possible reasons could include: entry error at an inspection time or border check, or around the clock, or a wound-back odometer. Odometer readings are incorrect? You maybe able to fix it.
